DELIVERING PROACTIVE SOLUTIONS FOR FINANCIAL MANAGEMENT

FINANCIAL SERVICES

Our global perspective empowers your financial decisions, enabling you to look ahead and take a proactive approach to financial management.

We provide the tools and expertise needed to capture the big picture and create a working plan based on the latest in global market developments that directly impact your business.

Evaluating your financial performance, planning and forecasting, analyzing your capital budget, portfolio valuations and management of your cash flow are just a few of the services our team offers.

FINANCIAL SERVICES

- VALUATION
- TAX ADVISORY

VALUATION

Our business practice of managing global operations through local expertise enables iCORE to have in-depth market and transaction data from around the world in one, centralized

database. Global insight into property performance, supply and demand and transactions enables us to provide superior valuation services for clients.

Leveraging our technology platform and integrated tools, we compile and analyze market data and trends to provide accurate assessment of your property. We understand the importance of quick response time and are dedicated to providing clients with prompt and accurate assessments.

TAX ADVISORY

As a result of the complex and unclear nature of tax calculation, companies are often charged excessively without a clear understanding of the intricate minutiae.

Our professionals are proficient in tax audit and recovery around the globe, and will assist in reviewing assessed value, and analyzing bills. Working closely with our Valuation Team, our Tax Advisory professionals will ensure that you only pay your fair share.

Additionally, our professionals are armed with tools to audit your past payments and recover the funds you may have overpaid throughout your portfolio.
