Effective Practice in Health and Social Care

"There is a growing body of literature surrounding the incorporation and complexity of partnership working within service delivery and whilst this edited book adds to that knowledge, it places a specific focus on highlighting examples of best practice within the field of health, social care and criminal justice..." In short, anyone working within the range of areas addressed here is likely to find something of value and, therefore, the book fits with the editors' suggested audience of practitioners, students and managers who increasingly have to work in a joined-up way as part of mainstream business." Michelle J. Jelley, PhD Student, School of Law, University of Plymouth, UK In The Howard J. journal May 2010 "It would be a rare practitioner or manager whose daily round does not include some partnership activity. Yet, gritty conferences notwithstanding, how often is its practice, let alone its theory properly examined and its value evaluated within those partnerships?" This is the second edition of a book which aims to do this is it worth obtaining this book for Chapter 16 alone. Entitled 'On the receiving end: Reflections from a service user', it should be compulsory reading for every practitioner, manager and politician for its matter-of-fact yet piercing account of being a service user." Journal of Health and Social Care in the Community Volume 3 issue 1, Published Online: 15 Dec 2009 "The second edition offers the reader a range of chapters that consider some of the key areas of social and health care where partnership working can be effective. The central theme of partnership working is an important one at a time when it has yet again been painful to see how departments, organisations and agencies have failed the vulnerable some horrendous criminal acts this book is a welcome addition to the increasing number of texts that are now addressing working across departmental and organisational boundaries." British J. of Social Work "Contemporary health and social care requires practitioners to develop effective partnerships with patients and clients, and with the wider social service workforce. This text is designed to promote the development of partnerships and demonstrate in which partnerships can work effectively in practice. This text is clearly written with all the health and social care professions in mind and will prove to be an invaluable resource for students and trained staff alike." Margaret Chambers, Lecturer in Children's Nursing, University of Plymouth, UK. Comprehensive yet concise, this text addresses many of the main social and health issues facing society today, and incorporates a proactive and constructive approach to partnership working. The third edition of this popular book has been updated to include new chapters on partnership in criminal justice and provides a practical and theoretical insight into some of the issues when working in collaborative partnership with other agencies. The text examines the partnership approach to delivering services in relation to: Child protection Mental health Gypsy travellers Domestic violence Drug misuse Homelessness Old and young people HIV and AIDS The first section of the book examines the nature of partnership in relation to concepts, politics, diversity, ethics and information technology. The second edition incorporates knowledge from a range of carefully selected contributors, using their expertise with particular user groups to illustrate where collaboration is crucial for effective practice. The final section reflects upon what has been learnt about partnership working and includes reflections from a service user and a chapter on evaluation. Effective Practice in health, Social Care and Criminal Justice is an essential text for students, practitioners and managers from a variety of human service agencies, and is a must-read for anyone working in a multi-agency partnership.

Learning in the workplace has come of age with the publication of this book. It shows the way for a new level of sophistication in the ways learning and work are treated. And it opens new territory for the world of learning throughout life. David Boud, University of Technology, Sydney Stephen Billett provides a comprehensive and practical model, well-grounded in theory and research, to guide learning in the workplace. This is a 'must read' for those in vocational education and training. Victoria Marsick, Columbia University Learning does not stop when you leave school or tertiary studies, but continues throughout life. The workplace is now seen as an important learning environment, and businesses and government units are encouraged to become 'learning organisations'. This is all very well in theory, but how does learning actually occur in the workplace? Drawing on research of a wide variety of workplaces in different countries, Stephen Billett analyses the strengths and limitations of 'on-the-job' learning. He outlines what knowledge individuals need and how they can best acquire this knowledge in workplace settings. He shows how to develop a workplace curriculum, and how it can be implemented in organisations of different sizes. Learning in the Workplace offers a comprehensive pedagogy for the workplace. It is a valuable reference for human resource practitioners and students in courses on professional development and adult and vocational learning.

Success in team sports depends on many factors with preparation being the top of the list of elements that can be controlled by the coach. In order to insure a team in any sport is prepared as well as possible, effective practice sessions are essential. For many coaches designing effective well-planned practices is one of the most difficult tasks involved in teaching sports.Putting it all together to craft a single effective practice can seem daunting to any coach. Coaching legend John Wooden spent nearly two hours planning his daily practice sessions during his tenure as the Wizard of Westwood at UCLA. Considering the skill Coach Wooden possessed in conducting practices, this single example shows the importance of being able to plan effective practices. Wooden was not alone in his attention to detail in planning practices. The Showtime Lakers coach Pat Riley was known to spend 3-5 hours in preparing for a ten minute meeting with his team. Football coaches are legendary for the time spent in preparing for practices. This seemingly mysterious process is not that hard. It simply takes time and some knowledge of what must happen in order for practice sessions to be effective, both for a single practice session and over the course of an entire season.

Planning practices is both an art and
a science. Based on both research by experts in the fields of sport psychology, motor control and motor learning and the nearly 30 years of the author's experience as a varsity coach. Describing how to lead sports teams for effective practices Plan Sports was written for coaches who would rather develop their coaching skills and design their own effective sports practices. There is so much more that goes into a great sports practice than just teaching sports skills. Just a few of the factors to be planned for on both an individual practice session and the entire sports season include some of the following: Creating an over-riding purpose for the program and team. Creating a culture of success. Goal setting Effective teaching strategies and tactics. Maximizing the use of time, facilities, staff and space available. Preventing burnout. Drill selection. Theories of learning motor skills. The author takes a look at all of these issues and more in the more than 20 chapters in the book. Mixing research with practical experience, the author addresses issues rookie and veteran coaches, regardless of the sport face in practice. These include: Setting the tone of practice. Dealing with difficult to motivate athletes. Avoiding common practice planning mistakes. Building intensity in practice. The role of confidence in creating Effective Practice for Team-Sports was written for coaches who would rather develop their coaching skills and design their own effective sports practices than purchase a book with sample practice sessions for their sport. Designing great practices is one of the most important elements in sports coaching. Not only do effective and efficient practice plans play an important role in preparing teams to win, these types of practices are much more fun for everyone involved.
