# ABOUT iCORE's SECURE DEPOSIT FUND TEAMS

## ARE YOU A DEDICATED CLIENT ADVOCATE?

### ABOUT OPPORTUNITIES with iCG SDF Teams

**ARE YOU A DEDICATED CLIENT ADVOCATE WITH TREMENDOUS MARKET EXPERTISE AND A PASSION FOR DELIVERING VALUE AT EVERY TURN?**

Are you sick and tired of being the commoditized talent?

If you're looking to break free from the one and done commission grind, and want to find a way to monetize your personal passion for your clients and their best interest; however you are not necessarily interested in starting your own company. We believe joining one of our existing teams is the prime solution.

Our offices are always on the lookout for passionate, hardworking team members that thrive in a fast-paced environment. Whether you have 40 years under your belt or are just getting started, we have the resources, technology and training and development programs to help you take your career to the next level.

At iCORE, we recognize that passion and pride of ownership are fundamental to the success of our professionals as well as each and every client relationship. In fact, we designed our business model around maximizing pride of ownership and unlocking your passion for client advocacy.

#### How will your Career as a iCG SDF agent be Different?

- Client ownership at all times, whether the deal is in your market or you're collaborating across the world
- Competitive commission splits
- Annual renewal commissions, that actually match the length of the investment
- Collaborative culture focused on driving value for our clients and increasing knowledge share
- Cutting-edge technologies that empower you to work smarter-not-harder; track your clients, opportunities as well as critical records
- Centralized Services that increase your revenue producing activities while reducing the time and money you spend on daily operational tasks

## SO WHAT DOES IT FEEL LIKE TO BE A PART OF ICORE GLOBAL & OUR ICG SECURE DEPOSIT FUND TEAM?

### HERE ARE SOME ICORE GLOBAL STORIES

AGENT: "Many of the traditional, big name brokerage houses will tell you they are the 'one stop shop' for all of your domestic and international needs. Many years of personal experience tell me otherwise. Trust me – I tried them all and they all fell short of my needs.

CLIENT: Frustrated and beginning to believe there was no company out there that could deliver all real estate needs for the corporate executive I had given up hope until I found iCORE Global." a former Director of Corporate Real Estate, Western Union

CLIENT: "In today's world of corporate real estate, the key differentiator is how you build a bridge and connect all the dots to provide seamless service that is conflict free & cost effective. iCORE GLOBAL provides this platform worldwide to its clients through its international consortium of regional experts. The primary focus is developing long-term relationships with clients rather than focusing on 'one off' deals.

FROM A CLIENT TO AN AGENT: iCORE GLOBAL has developed a platform built on the latest technology, the likes of which are seldom found anywhere else. We've had an extremely memorable experience thus far and look forward to building a successful business and creating lifelong friendships".

MANAGING AGENT: "The iCORE technology platform is what first attracted us to the global consortium. The Customer Relationship Management (CRM) system is one of the best in the industry and well beyond what the industry standards are for CRM's. iCORE's corporate team is consistently upgrading their capabilities, listening to its offices, and making stellar efforts to maintain that strategic advantage for all iCORE offices and clients worldwide -- A big plus when recruiting transactions specialists!

"The global platform and state of the art technologies are two key points that attracted us to iCORE Global. By partnering with a full service, global company, we feel we can give our clients the competitive edge and can compete with the larger firms in the Dallas area."

### ICG SECURE DEPOSIT FUND STORIES

Our use of the platform is expanding daily and helping us to drive transaction revenues and to supplement our development and third-party provider business in the Southwest. Please feel free to call me with questions."

"I'm a bit of a techno-geek when it comes to the use and benefits of a quality CRM program built for sales. It was obvious that iCORE spent countless hours and funds developing ORIGIN, their proprietary CRM system for both real estate as well as their financial teams; and built it into a tool that not only tracks activities and opportunity progress, but also ORIGIN easy and functional marketing campaigns with nearly unlimited customizability".

"Working within a responsive global network here in the North American market, and yet providing a boutique environment of first-class services and support to both our clients and fellow brokers, has paid great dividends. iCORE Global's overview remains true, helping us better serve the ever-changing real estate markets."

"My favorite part so far is iCORE delivered not only the best Client Facing Product I have ever seen (i.e. a safe 9-12% p.a. for my clients). It also is looking out for me and my quality of life; that is great commission every year the client is in the program. WOW. "

"I have been a MANAGING AGENT for other providers for years, never before has that provider said: I want to pay you and your Agents better."

### FROM THE TOP

"It is our objective to deliver a product that brings value to every hard working / saving family! Our program has successfully delivered earnings that have previously only been afforded to the very affluent. Additionally, our commission structure pays our Agents and Managers in a way that improves Client support and removes the feeling that any given Client feels with other platforms; "wait a minute, am I just a commissionable event or is that in my best interest?"

We are proud to say, Yes Mr. and Mrs. Client this is in your best interest!"  
Samantha Muetting, Founder & CEO
